Section VII.—Retail Price Index-Numbers—Food, Groceries, Housing, etc.

Note.—Commencing with the first quarter of the Year 1925 the basis of computation for housing accommodation was altered. Previously, the weighted average rent of all houses had been taken for the rent constituent. In the tables on the following pages (excepting p. 71) the weighted average rent of 4 and 5 roomed houses only has been taken. The index numbers in the table on page 71 prepared for the use of the Commonwealth Court of Conciliation and Arbitration include the weighted average rental of all houses with base of table—Six Capital Cities in 1911 = 1000. With the exception of this table retail price index numbers, since January, 1930, have been computed to a new base, viz.—Six Capital Cities—1923—1927 = 1000.

Retail Price Index-Numbers.(a)—Capital Cities, 1911 to 1930.

Base in each Section :—Weighted Average of Six Capital Cities during five yearly period—1923—1927 = 1,000.

NOTE.—The index-numbers given in the separate parts of the table cannot be compared with each other in order to show the relative cost of (say) housing, and food and groceries, since the weighted average cost for the six cities taken together in 1923—1927 in each group or combination is made equal to 1,000.

(a) Weighted Average for five towns.

(b) Basis of table.

Note.—This table is prepared for the Commonwealth Court of Conciliation and Arbitration on a different basis from those given on the five preceding pages. As indicated by the heading in the table the rent constituent is based upon the weighted average of all houses. It is comparable with those published in issues of the Quarterly Summary previous to No. 99, but not directly comparable with those on pages 66 to 70 of this issue, owing to the difference in the basis of housing accommodation.

Retail Price Index-Numbers (Food, Groceries, and Housing—all Houses) for each of Thirty Towns for the periods specified, with Weighted Average of Food, Groceries, and Rent of all Houses for the Six Capital Cities in 1911 as Base = 1,000.
